

# 2024 *29er* ASIAN CHAMPIONSHIP

## SELF-CERTIFICATION EQUIPMENT REGISTRATION PROCESS

A timetable for Equipment inspection will be posted on the official notice board **on or before 1200 hrs on 29 January 2024.**

This takes the form of:

1. A Equipment Self Declaration Form, plus
2. Specific Measurement checks
3. Bookings can be made [here](#)

### Equipment Registration Process / Self-Declaration Form

1. The Self Declaration Equipment Registration Form **SHALL** be downloaded (and printed) from the Event Website prior to arrival in at the regatta site in Hong Kong.
2. Proceed to the Measurement Desk at the Event Marquee at your booked time and check in.
3. Once the above equipment checks and measurements have been completed by the Technical Committee, the form shall be returned to the Measurement Desk for final processing.

*\*Please ensure the Measurement Form is signed off by the Measurement Desk to be able to collect your safety Tally Tag*

### Event Equipment Compliance Checks

During the event, at the end of each day's racing, a number of boats may be selected, based on finishing position in the last race of that day, for equipment compliance checks.

1. Selected boats SHALL proceed directly to the Equipment Inspection Area on returning to shore for an Equipment Compliance Check. All items of Equipment used will be checked against the Declaration Form for Compliance and the Class Rules
2. Boats identified as not using Equipment as declared on the Self Declaration Form (or approved replacement equipment) will be subject to protest by the Event Chief Equipment Inspector and may risk a penalty applied to all races sailed on that day as detailed in the Event Sailing Instructions. The purpose of this approach will be to simplify and accelerate Equipment Inspection and Registration, whilst ensuring the one design nature of the class is maintained effectively.
